

Scope of work to develop website for- SirtifyMe

Project Overview

The aim of this project is in creating an online platform for Physician Assistants, Nurse Practitioners and Physicians. Users will be able to upload data in the platform and can be accessed by Recruiters, Hospitals and Third Party Credentialing Companies. The website will act as a repository of the data. The purpose of this platform is to help streamline the hiring process. The platform can be used for the purpose of pre-hiring and /or post-hiring, or both.

REFERENCES

Need to provide 3 reference person names and phone number/email address and details for this section.

2 .Nurse Practitioners (NP) & 3. Physicians(MD/DO)

Will be having the same features as that of the profile for Physician Assistants

4. Website Admin

- Will be able to add/delete/modify content and pages of the website through the admin section
- Will be able to browse through the different informations as uploaded by Physician assistants, Nurse Practitioners & Physicians
- Will be able to moderate any profile of Physician assistants, Nurse Practitioners & Physicians
- Will be able to download reports on the details of the Physician assistants, Nurse Practitioners & Physicians

5. Recruiters (Used for Pre Hire)

Recruitment can be done by the following users

1) Private Recruiters

6. Hospitals (Can use this service for pre/post or both hire)

- a. HR within the hospital that will be onboarding and credentialing the provider
- b. Recruiters within the hospitals

7. Third Party Credentialing companies

- This service is used once the PA/NP/MD/DO has been hired.
- This service will be used by a company that outsources their credentialing. The credentialing company will send a request to the PA/NP/MD/DO to be able to access their information. Once it is accessible the PA/NP/MD/DO will not have to send information to the credentialing company, as the information will be accessible in the database.

Membership fee

- For each of the recruiter's profile/ Hospitals/ Third party credentialing companies as mentioned above, the membership fee will be \$1000/month
- MD/DO/PA/NP pay \$10 annually for service.

1) Private Recruiters

- Will be able to register in the website using their social media credentials or email

- Make the payment for the membership plan
- Can log in after registration and membership and can browse through the different profiles as prostate by the Physician Assistants, Nurse Practitioners & Physicians
- The Private Recruiters will be able to see the profile image, a brief profile description and few more profile details of each of the profile of PA/NP/MD/DO
- To view details of each profile, they will require to send a request of access to each and every individual profile owner as selected by them

2) Hospitals

- Will be able to register in the website using their social media credentials or email
- Make the payment for the membership plan
- Can log in after registration and membership and can browse through the different profiles as prostate by the Physician Assistants, Nurse Practitioners & Physicians
- The Hospitals will be able to see the profile image, a brief profile description and few more profile details of each of the profile of PA/NP/MD/DO
- To view details of each profile, they will require to send a request of access to each and every individual profile owner as selected by them
- Hospitals will be able to create sub user under them as Recruiters within the hospital and/or HR department.

Third party credentialing companies

- Will be able to register in the website using their social media credentials or email
- Make the payment for the membership plan
- Can send request to view full profile
- Can log in after registration and membership and can have full access to different profiles once the PA/NP/MD/DO gives permission.

Features of the proposed website

1. Custom based design solution will be offered for the website so that the website is designed just as per your desired envision
2. Color scheme of the website will be based on the color scheme of the logo as available
3. The website will be based on the latest market trend and will be able to attract visitors at a first glance
4. The website will be Responsive based so that it works in all types of browsers
5. The website will be SEO friendly.
